Sheet 9

Create an HTML document called "`index.html`".

The document contains the HTML code to design a web page similar to the following one:

The design of your web page must obey the following instructions:

1. The entire web page has a color code "#B6D0E2" as a <u>background color</u>.
2. The web page is divided into the following <u>three parts</u>: Header, Navigation Bar, and Middle.
   a. *Header* contains the following: two images and some formatted text.

   b. *Navigation Bar* contains a list of hyperlinks that looks like the following.

   c. *Middle* is itself divided into two parts: the "left" and the "content".
   • The "left" part contains some text about working hours list.
   • The "content" part contains an `iframe` element.
   • The source of the `iframe` element and the "Home" link in the navigation bar refer to the same image named "`shop.jpg`".
   • The "TVs" link refers to a web page called "`TV.html`", and the referred page should be displayed in the `iframe` element.

- The "TV.html" page should look like the following.

- The "Register" link refers to a web page called "Register.html", and the referred page should be displayed in the iframe element.
- The "Register.html" page should look like the following.

- The whole web page should look like the following, when clicking the "TVs" and "Register" links.

Hint:
- The word "Sheet 9" in the header part has the following format: "h1" heading, "20px" font size, and "darkblue" text color.
- The word "Price: 7000 EGP" in the "TV.html" page is formatted as follows: "h2" heading, "20px" font size, and "darkblue" text color.
- The used color codes are:
  - "#5F9EA0" and "#80DAEB" for the backgrounds of the "TV.html" and "Register.html" web pages, respectively.
  - "#3F00FF" for the left and right borders of the form.
  - "#00008B" and "#552586" for the background color and the border color of the Register button, respectively.
